

The Sinclair Broadcast Group abused their power, and side-stepped our country's election laws by demanding that many of their affiliate stations air a so called "news" documentary about John Kerry. This program, aired two weeks before the election was clearly a political smear designed to sway voters against Kerry. We are outraged. We strongly urge the FCC to make sure that Sinclair is decentralized and that more power is given to local stations to determine their own programming, thereby, supporting this country's true democratic values.

Thank you for your time in this important matter.
